

Install the Battery Monitor App

Download the battery monitoring app for your EcoTree Lithium Battery

Scan the Android or Apple QR code below to download the correct app for your device.

ANDROID

APPLE

Once you have installed the app and first open it, there will be a login screen. You do not need to log in or create an account, you can just click back which will take you to the list of batteries within Bluetooth range.

For customers with multiple batteries, the sticker on the battery will match the MAC address shown in the list of batteries. When you see your battery in the list click the 'Connect' button on the right.
